# **NOTE ON SOURCES**

The documents in this collection are from Record Group #59, Records of the Department of State, Central Files: China. The decimal numbers microfilmed include 893.00–893.9111. The documents in this collection can be found at the National Archives, Washington, D.C.

# **EDITORIAL NOTE**

University Publications of America has attempted to include in this microfilm publication all documents of historical significance. UPA has not microfilmed duplicate copies of documents, which amount to approximately 30% of these files. UPA has microfilmed the original document or the copy of highest reproductive quality when two or more copies of the same document were discovered. Also UPA has not included correspondence of a personal nature such as visa applications, tourist information, and request for information already covered in official reports. UPA believes that this minor editing of the U.S. State Department's Central Files preserves the historical importance of this collection, and at the same time dramatically lowers the cost of acquiring a microfilm reproduction of these files.
