**A:** Yes, this is a new feature.

**A:** Yes, by adding a word or phrase in "narrow search." Note: If you put in more than one word, it will treat it as a Boolean search.

**3. Is there a limit to the number of favorite sources I can add and view in the drop-down?**

**A:** Yes, the limit is 50.

**4. Where do I find more information about a source?**

**A:** Click on the "i" button next to a source checkbox on the source form.

**5. Regarding the spell check function, will it retrieve documents that have the term spelled correctly?**

**A:** Not automatically, the product gives you a "Did You Mean" option.

**6. Is there any way to show incorrect and suggested correct spelling terms together in the same results set?**

**A:** No, you will either need to change the terms to the suggested corrections or conduct a new search.

**7. Is it effective for refining searches to string two words next to each other?**

**A:** In the narrow search function, if you string two words next to each other the product will narrow it as a Boolean phrase and not by relevancy. If you put two words together on the search form it will search by relevance.

**A:** 50.

**A:** Saved Searches are kept for as long as you are a user of the product.
